4	Responsibilities .....	3

## 1 Purpose

In order to protect Quadrant Resource from numerous cybercrimes, company has a clear and organized cyber security policy.

## 2 Scope

The scope of cybersecurity is broad and encompasses various aspects related to the protection of information systems, networks, and data from cyber threats.

## 3 Policy Guidelines

### **Policies and Guidelines to be followed:**

- Network Security: Refer to Firewall Policy.
- Data Classification: Refer to Data Classification Policy.
- Password Security: Refer to Password Policy
- Infrastructure Hardening: Refer to Infrastructure Hardening Policy.
- Patch Management: Refer to Infrastructure Hardening Policy.
- User Education and Awareness: Provide training and awareness programs to educate users about password best practices, such as not sharing passwords, avoiding common passwords, and recognizing phishing attempts.
- Regular Reviews and Audits: Conduct periodic reviews and audits of password policies and practices to ensure compliance with the policy and identify areas for improvement.
- End Device Security: Implemented End Device security controls.

## 4 Responsibilities

- All individual users having accounts for accessing systems/services in the Quadrant domain, and system/network administrators of Quadrant servers/network equipment's shall ensure the implementation of this policy.
